TCM MOVES INSIDE THE LUNATIC FRINGE

Steve Barber, who astounded the scientific community with his ability to hear crosstalk on DPT, the Dallas Police Tape with its fourth HSCA shot, has joined T C M's staff. The Board is searching for an appropriate title.

For the public , it's SteeveWho ?? For assassinologists it's Steve, who with Todd Vaughan at his elbow, advised the National Academy of Science's Committe on Acoustic Ballistics that the tape's "shot-sounds" occurred after the "..hold everything secure..." crosstalk.

THE Conspiracy's infiltration of HSCA barked up the wrong tree. There is no open mic in Dealey Plaza. There are no shot-sounds on the tape. The Pellicano Report is correct. Come on in and ask Steve Who, he knows.

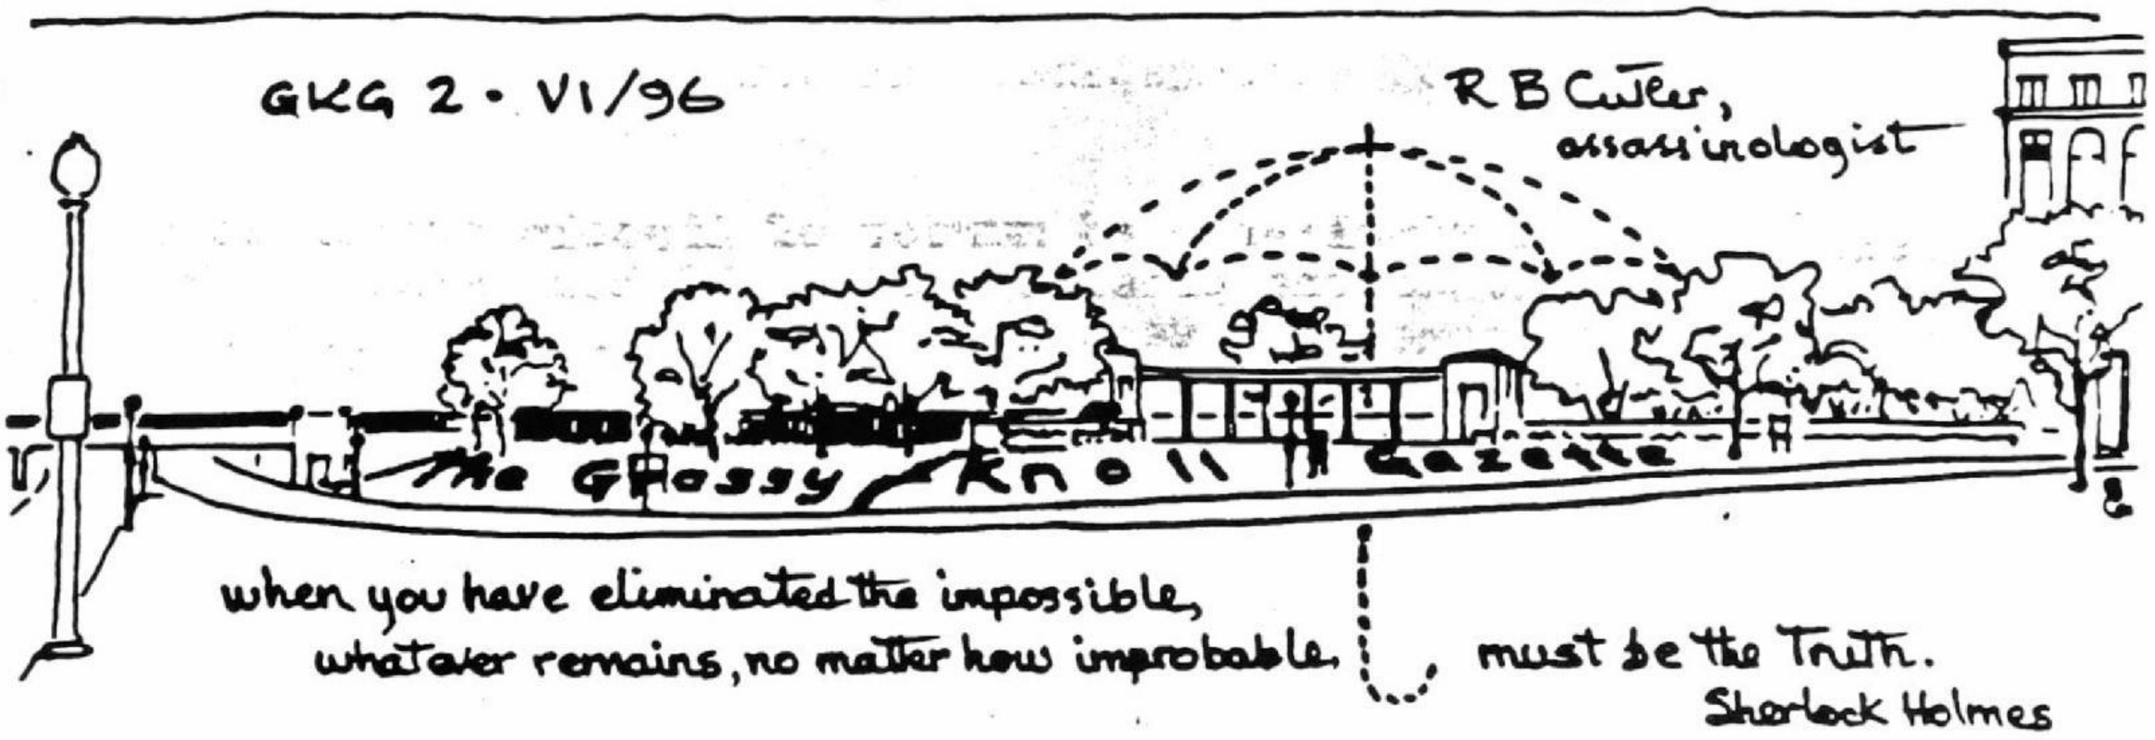
Welcome SNB. ▼

GKG RETAINS ITS OUTER-REACHES SEAT

The following anti-climax pages chronicles the Media-nurtured existence of the Lone Assassin Myth by examining the planted evidence in America's three (3) conspiracies.

As in T C M's exhibits, the historical facts show two conspiracies, four Lone Assassins and one patsy from 1835 to 1933. This is in sharp contrast to THE Conspiracy, 1945 and counting, the one and only conspiracy that beagt a squillion plots to keep PWM, the Professional War Machine well-oiled and running smoothly through thick and thin for the past half-century.

The motivated Lone Assassin count is zero (0). The Lone Assassin-Patsy Club boasts nine members. From here it looks as though NRO's mathematical genius is being inducted as Number Ten.



THE LONE ASSASSIN MYTH

In an early Warren Commission meeting, Alen Dulles brainwashed his friends into the FBI/DPD theory that one lone-nut had murdered the President with

..... America is accustomed to Lone Assassins ....

Dulles was, of course, correct, insofar as an ex-CIA DCI needed to be correct. Covering-up the Dealey Plaza fusillade of four rifles and TUM, the umbrella man, with a dead patsy with the ID and military record of a US marine from Ft Worth, Dulles was at his peak.

His lone-assassin, no-conspiracy list probably included Booth and Zangara along with Lawrence, Guiteau, Czolgosz, Schrank and Zangara.

T C M, The Conspiracy Museum corrects the Commissionerby placing Booth and Zangara in their 1865 and 1933 conspiracies. Booth's disgust with waiting for his conspirators to make up their collective mind pushed him into killing the traitor himself. Zangara became America's first Lone Assassin Patsy, a victim of the Capone gang's plot to get the Mayor of Chicago. (Thank you David Scheim for this story in your Contract on America)

This issue chronicles Media's persistence in twisting Dealey Plaza's Lone Assassin Theory into Myth by pointing to the lack of planted evidence in four of the six pre-WW II assassinations and its preponderance in the murders and failures since XI/22/63. Exposing the evidence planted under Media's nose also reveals the Theory's underpinning of the bullets-for-ballots election/re-election of America's presidents, 1964 - 1992. Democracy is never dull.

American Assassinations 1835 - 1933

In 1835, a house painter, self-styled as England's King Richard III, decided the Vice President would be more amenable to paying his land-claims than the President. Accosting President Jackson on the Capitol's steps, Richard Lawrence pulled two pistols from his pockets and fired at point-blank range. Powder and ball having fallen out into his pockets, only the caps detonated.

His attorney, Francis Scott Key, successfully pleaded insanity and Lawrence was tucked away in an asylum for life.

No planted evidence, no conspiracy in this first assassination.

In 1865, Booth's single-handed murder of Lincoln overshadowed the conspiracy to kidnap the president and hold him ransom in Richmond for Southern prisoners of war. A second conspirator almost killed the Secretary of State. A third man could not bring himself to murder the Vice President.

THE LONE ASSASSIN MYTH

In this conspiracy the planted evidence is the false whiskers and name of the assassin,and his companion's false name,which disguised them from the doctor who set Booth's leg the morning after the murder. Though Dr Samuel A Mudd had met Booth previously, he did not recognize him that day.

The doctor was unjustly convicted of conspiracy and sent off to the Dry Tortugas. His pardon was only recently denied one more time.

In 1891,a theologian/lawyer/politician claims the administration owes him at least a consulship in Paris, France. Whatsmore, the president's ruiningthe Grand Old Party.

Suiting action to words, he kills President Garfield.

This time the jury does not believe the insanity plea and the assassin is executed. No planted evidence; no conspiracy.

In 1901, a true Anarchist believing government to be unecessary goes one step further : it is therefore only right to kill all 'governors'. Leon Czolgozs kills President McKinley.

Media spins this as an anarchist plot. Anarachism in America is killed as the assassin is executed.

No planted evidence; no conspiracy.

In 1912, a mild-mannered man, visited in dreams by McKinley's avenging spirit, perceives Teddy Roosevelt's Bull Moose campaign as TR's seeking a third presidential term. In John Schrank's book TR's three years of McKinley's term plus his own elected four years adds up to two presidential terms. Schrank agrees with Washington and Jefferson: three is one too many.

Shooting TR on his way to a political rally, Schrank is captured immediately. TR arrives at the hall amist jeers he has been shot.

Opening his vest to display his bloodied shirt where the folded speech in his jacket pocket had stopped the bullet short of penetration of his chest, he roars,

It takes more than one bullet to stop a Bull Moose.

The crowd goes bananas; TR splits the Republicans and Wilson is elected in 1912. Schrank is sent to prison for life.

No planted evidence; no conspiracy.

THE LONE ASSASSIN MYTH

In 1933, a retired brickmason with a grudge against rich capitalists, climbs onto a chair at a political rall y in Miami where President-elect Franklin Roosevelt is to speak.

Guiseppe Zangara fires five shots. Five people are wounded, one of them fatally but none are within ten feet of FDR. Tried and convicted of murdering Anton Cermak, Mayor of Chicago, Zangara is executed, apparently one more real Lone Assassin.

Years later the deathbed confession of a Mafiafigure reveals that, unknown to Zangara, and it would seem many others, the Mayor was killed by a MOB hit-man firing a .45-caliber pistol under the friendly fire of Zangara's .38-caliber pistol.

The planted evidence, America's first Lone-Assassin Patsy and his .38, is the centerpiece of the Capone gang's plot to get the Mayor.

Four Lone Assassins, Two Conspiracies and One Lone-Assassin Patsy

This is the 150-year historical background Dulles shaded to familiarize his fellow commissioners with America's Lone Assassins.

Lawrence, Guiteau, Czolgosz and Schrank ~~was~~ were indeed each a lone nut, an individual working out his differences with the President in his own way, with no help whatsoever from anyone else.

Zangara acted similarly but his penchant for the ponies, so close to Mob operations, tinctures his alone-ness. Booth, of course, was over his head in Conspiracy, a patriotic Southerner saving the USA.

There was no Lone Assassin Theory such as could be sanctified into Myth. That came after Media was trapped in Dallas.

American Assassinations 1963 -

In 1963, THE Conspiracy to Control the Oval Office, finding it impossible to bribe or otherwise change the President's mind, resorted to murder that the Cold War could escalate into a Hot War in Asia which could stop the red tide of Communism.

The planted evidence in that ambush included four intentional misses, two from the assassin's nest, two from behind the stockade fence, three hulls in the nest, a rifle and a clipboard not far from it, , the nest itself, a pistol, a dozen red roses, a pre-fired Carcano bullet, a re-arranged and re-rebuted motrocade, half the Cabinet over the Pacific en route to Japan, a communist patsy,(Hidell) complete with Oswald's ID and military record.. any more ?

For those who cannot see their way to beliving the conspiracy —

GKG.5

that barrels through as the Truth, they must be comfortable with knowing how a rifleman, sixty-odd feet above and one hundred and sixty-odd feet behind his victim can inflict a wound of entry in the victim's throat.... and retain his status as a Lone Assassin. The Myth starts here as a gleam in Dulles' eye.

In 1968, the threat of THE Conspiracy's Oval Office Designate not winning the presidential election was diminshed with two assassinations: MLK and RFK.

In Memphis, the planted evidence includes relocating MLK's reservation to balcony room 306, a rifle with the patsy's fingerprints, a bag of his belongings, a white Mustang, a bathroom assassin's nest complete with escaping gunman, decoys escaping in a police car, a false chase on radio, a patsy, inadvertently half a country-mile from the murder scene.

Like history, THE Conspiracy repeats itself with leaving a rifle on the sidewalk, here, and on the SIXTH FLOOR, there

In Los Angeles, the planted evidence includes the patsy, his friendly fire from in front of the victim and bullets with wood fibers discovered in the patsy's car.

The lack of planted evidence is more than compensated for by destruction of photographs, door trim pieces, ceiling tiles, refiling pistols, bullets, fragments and a firing sequence which kills the victim with a shot fired from less than two inches behind his right ear by the patsy four feet in front of that ear as he was being slammed onto a steam table....

This impossible reverse of the Dallas scenario brings THE Conspiracy's coverup pattern up on every screen but Media's. Conspiracy is not a dirty word; it's natural, human behaviour oft gone astray. Check it out on the kids three jumps ahead of you most of the time. Conspiracy, like Charity, begins at home.

In 1969, even before inauguration, CREEP, Committee to Re-Elect the President found itself threatened by the third Kennedy. EMK, having picked up the torch was inveighing against the Indo-China idiocy.

Three brothers murdered by three Lone Assassins might just give the public a whiff too much of Conspiracy. CREEP decided to scandalize the front-running Democrat out of the 72 campaign.

The planted evidence included a double for EMK at ØØ2Ø at Cottage at Ø225 at the Inn, EMK who became his own Patsy, the Oldsmobile

well-smashed-up found upside down in Poucha Pond with a woman inside it, the faked accent.

THE Conspiracy's design was smothered in Media's booze-blonde-and-beach bonanza. Reading the message to steer clear of the White House, EMK shouldered the blame, bowed out of Campaign 72 and avoided further ~~villification and~~ violence to himself and his family.

In 1972, CREEP failed to persuade the Governor of Alabama to run on the Democratic ticket. Fearful of losing conservative votes to that third party, the threat was removed by energyzing the tried-and-true modus operandum: Lone Assassin Patsy.

The planted evidence is Bremer, the patsy and his smoking gun.

THE Conspiracy is evident in ten wounds in four people from the trial's four shots by the patsy. Two shooters, who left GCW maimed for life, run the gang who couldn't shoot straight a damned close second.

In 1981, on T St, Washington DC, the planted evidence is once again the patsy and his smoking gun.

Conspiracy is evident in the three-second whistle which precedes the seven shots, heard on NBC, CBS and ABC tapes, from Hinckley's six-shooter.

Furthermore, the FBI's firing sequence has Reagan wounded by the sixth, really the seventh, shot ricochetting off the limousine into his chest as he is pushed into the car. Time's coverphoto shows him hit about three seconds earlier, as he walked toward the car.

The back to front and downward track of the bullet along the chest wall locates the second shooter on top of the wall around the bend from where the patsy shot on the sidewalk.

In 1975, Patsies Fromme and Moore ~~was~~ were used to surround GRF with enough heroic aura to win the 76 election.

The planted evidence was the bullet scar on the St Francis Hotel's wall attesting to a near-miss on the president. There is no scar. The Secret Service connections to the Patsies stashed their motives away in the 2050 AD file.

In 1983, the planted evidence that fooled the world into believing Osipovich shot-down KA 007 into the Sea of Japan included KA 007's onboard bomb, its remote triggerman, the S-P Stealth Prototype plane that drew the patsy's missile-launchings, bits and pieces

THE LONE ASSASSIN MYTH

in the Sea of Japan to float north to Moneron Island, the tape that "proved shootdown".

By now THE Conspiracy's Moles of the Potomac (GKG II/89) realize that tricking Shultz, Reagan and Kirkpatrick into Evil-Empire bashing won re-election in '84 and lost the Disarmament War at Reykjavik in '86.

Get their Man

Somewhere in this favored land the sun is shining bright,
A band is playing somewhere and somewhere hearts are light.
Somewhere men are laughing and somewhere children shout,
There's gobs of joy in Muddville: Th'Lone Assassin has struck out.

Ahimsa to all, and to all a goodnight...
